

## MEMORANDUM

**To:** Sewage Sludge Incinerator Docket

**From:** Amy Hambrick, US EPA

**Date:** February 2011

**Subject:** SSI Inventory Map Overlay With Tribal Lands

---

EPA has received coordinated comments from the NTAA; those comments can be reviewed in the public docket, document number EPA-HQ-OAR-2009-0559-0130.1. Commenters recommended that EPA provide a map overlay that accounts for both SSI units and tribal lands so tribes can acquire a better understanding on how they might be affected by such sites and these standards in general. EPA is providing a map overlay attached to this memo for the SSI docket so that tribes can acquire a better understanding on how they might be affected by SSI sites and the standards in general. Further questions regarding the location of SSI units can be directed to the EPA staff contact as listed in the SSI final standards and guidelines.
